Overview

This document provides the Appendices to the Coach Strategy for the Western Gateway Sub-National Transport Body area. Contained is additional, more detailed information which has been used to inform the development of the strategy, including the identification of challenges and opportunities.

Appendix A - Coach Operators outside Western Gateway sending vehicles into the Gateway area

Appendix A focuses on coach operators from outside the Western Gateway region which send vehicles into the area. The majority of which were providing holiday and sightseeing tours across the region.

Here is a selection of different coaches seen operating in the Western Gateway area in July 2022.

Volvo Plaxton Panther operated by Glentons of Fife, Scotland on a group holiday package. The vehicle is based at the Hermitage Hotel, Bournemouth where it was doing day trips until the end of the week and its return journey to Scotland.

Setra S416 coach operated by Davies Coaches of Llanelli, South Wales, observed in the Kings Park Coach Park near Bournemouth Football Club's stadium. This vehicle was in use for tourists on a holiday break to the South Coast.

A Mercedes Tourismo 49 seater six wheeler luxury coach operated by Gibbons Holidays of Cardiff seen parked in Poole Coach Park. Again this coach is in use for tourism purposes with the driver away from the Welsh home operating centre for several days.

The white coach is a 2020 Chinese Yutong model ZK6129HQ coach, operated by Corbel Coaches from London. The coach runs in a white unmarked livery as apart from private hire the coach sometimes operates services for Flixbus, mentioned later. Yutong are gaining some market share in the UK due not only to the cost of the vehicles and their development of a competitive electric single decker vehicle. https://www.route-one.net/news/yutong-e-bus-best-in-class-after-millbrook-results-says-dealer/

Southampton based Princess operate around 16 coaches including this 53 seat Scania K410EB4 Interlink HD vehicle on a private hire day trip to Swanage. It is seen driving on to the Sandbanks to Studland chain ferry. Princess Coaches are a member of UKCOA, UK Coach Operators Association.

Western Gateway based operators

The image on the previous page shows a line up of coaches and two buses at the Poole Coach Park (also known as Seldown Coach Park) which is adjacent to the Dolphin Centre and main Bus station in Poole. This coach park is next to the Bus Garage of Go South Coast.

Go South Coast has expanded operations in recent years and trades under several names in the Western Gateway area including "more", Damory, Tourist and Excelsior. Damory is a well known brand in West Dorset and there are vehicles operating stage carriage and schools work in this brand. Most of these coaches operate with the higher capacity 3+2 seating designed for school children. The Tourist brand is retained for some traditional work.

But the concentration is on Excelsior which was an acquisition of a long- established luxury coach company based in Bournemouth. The coaching name is being continued although the ownership is now in the hands of one of the Top 5 Bus Groups (GOAhead Group). Excelsior is one of the very few coach operators to be members of the prestigious Guild of British Coach Operators. They have a fleet of over 20 luxury vehicles ranging from 19 to 80 seaters. Every coach features the latest technology including vehicle tracking, driver performance monitoring, real time web based dashboard and CCTV. Many coaches are fitted with a safety device that prevent the vehicle from being started until the driver has given a negative alcohol breath test.

This is a 2017 Euro VI Diesel Volvo B11R Plaxton bodied coach with the aerodynamic swept curve bodywork for style and importantly better fuel consumption. This vehicle was in the Tourist Coaches livery but now the Excelsior name has been added.

This vehicle is a Volvo B11R coach with Jonckheere bodywork and personalised number plate that has been a feature of Excelsior for over 60 years. Jonckheere is a long established Belgian coach bodybuilder specialising in high quality workmanship. It is now part of VDL Bus and Coach which is the sixth largest bus and coach manufacturer in Europe.

A Mercedes Tourismo luxury coach operated by Turners Coachways. Established in 1966 they are a family run business with their depot and offices in Bristol and have a large fleet of modern luxury coaches ranging from mini buses to executive coaches.

Turners are members of the Confederation of Passenger Transport (CPT). Tony Turner is the president of the Coach Operators Federation (COF), established in 1955 to help improve and promote coach services to the general public.

In May 2022 Burrows Coaches of Blandford Forum, Dorset acquired this Chinese C35F-seated King Long XMQ6900 midicoach GN10 COA from Vales Coaches, Dorset. Burrows claim to be Dorset's newest bus & coach operator! This coach has been through various operators in its 12 year life so far. http://kinglong-bus.com/1-coach.html

Appendix B - List of Scheduled Coach Routes operating in the Western Gateway

Appendix B presents a list of scheduled coach routes operating in the Western Gateway STB area, including the intermediate stops, fares and frequencies. The information was compiled in Summer 2022 and will therefore not capture any more recent amendments to timetables or the cancelling or creation of coach routes.

Appendix B - List of Scheduled Coach Routes operating in the Western Gateway

Compiled in Summer 2022

Operator	Route Number	Route	Intermediate Stops	Frequency	Fares
FLIXBUS		Bristol City Centre - Swansea	Cardiff City Centre, Bridgend, Swansea University	Daily	from £4.99
FLIXBUS		Bristol City Centre - Exeter	Taunton (Hankridge Farm)	2x daily	from £5.99

National Express	444	Gloucester - London Victoria	Gloucester (Longlevens), Cheltenham (Arle Court), Cheltenham, Cheltenham (Charlton Kings), Cirencester, [Swindon,], [Cricklade,] [Heathrow Airport,] [London Earl's Court]	9-12x day	from £9
National Express	201	Gatwick Airport (South) - Swansea	Gatwick Airport (North), Heathrow Airport T5, Heathrow Airport, Bristol, Newport, Cardiff, Bridgend-Sarn, Port Talbot	8x day	from £24
National Express	202	Cardiff - Heathrow Airport T5	Newport, Bristol, Heathrow Airport	6x day	from £23
National Express	216	Bristol Airport - Cardiff	Newport, Cardiff University, Cardiff (Castle)	5x day	from £6
National Express	204	Poole - Heathrow Airport	Parkstone, Branksome, Westbourne, Bournemouth, Ringwood, Southampton, Winchester, Heathrow Airport T5	5x day	from £23
National Express	205	Poole - Gatwick Airport (South)	Parkstone, Branksome, Westbourne, Bournemouth, Ringwood, Heathrow Airport T5, Heathrow Airport, Gatwick Airport (North)	3x day	from £23.20
National Express	205	Bournemouth - Gatwick Airport (South)	Ringwood, Heathrow Airport T5, Heathrow Airport, Gatwick Airport (North)	2x day	from £22
National Express	101	Birmingham - Plymouth	Bristol, Bridgwater, North Petherton, Taunton, Exeter (Honiton Rd), Exeter, Plymouth (Marsh Mills)	3x day	from £23.80
National Express	104	Penzance - Birmingham	Crowlas, St Erth, Hayle, Copperhouse, Camborne, Pool, Redruth, Newquay, Bodmin, Liskeard, Tideford, Landrake, Plymouth, Exeter, Exeter (Honiton Rd), Bristol	Daily	from £44
National Express	160	Bournemouth -Birmingham	[Ringwood,] Southampton, [Chieveley Service Area,] Oxford, Birmingham	2x day	from £16.30
National Express	102	Plymouth - Birmingham	Plymouth (Marsh Mills), Paignton, Torquay, Exeter, Exeter (Honiton Rd), [Cheltenham,] Bristol	2x day	from £23.80
National Express	106	Penzance - Birmingham	Crowlas, St Erth, Hayle, Copperhouse, Camborne, Pool, Redruth, Truro, Newquay, Bodmin, Liskeard, Tideford, Landrake, Plymouth, Exeter Services, Exeter, Exeter (Honiton Rd), Taunton, North Petherton, Bridgwater, Bristol, Cheltenham	Daily	from £44
Berrys Coaches	Superfast1	Wellington* – London Hammersmith (*service previously began at Tiverton, but lack of local demand since the Pandemic has caused berrys to no longer serve Tiverton, effective 12/01/2023)	Taunton, North Petherton, Bridgwater	2x day	£21 single/£28- 35 return
Berrys Coaches	Superfast2	Taunton – London Hammersmith	Ilminster, South Petherton, Yeovil, Ilchester, Royal Naval Air Station, Wincanton	2x day	£21 single/£28- 35 return
Berrys Coaches	Superfast3	Taunton - London Hammersmith	Othery, Street, Glastonbury, Wells, Shepton Mallet, Frome, Warminster, Codford, Amesbury	Daily	£21 single/£28- 35 return
Megabus	Some services run by Watts Coaches	London Victoria - Swansea	[Heathrow Airport, Bristol (Bond Street), Bristol UWE, Newport], Cardiff University, Cardiff	3x day Thu-Mon, 2x day Tue-Wed	from £6.78
Megabus	Operated by Yellow Coaches	London Victoria - Poole	Heathrow Airport, Bournemouth, Bournemouth University	5x day	from £5
Megabus	A daily frequency operated by Adventure Travel	London Victoria - Bristol (Bond Street)	Heathrow Airport	12x day Tu-Wed, 20x day Th-Mon	from £2.95

Western Gateway STB Coach Strategy – Appendices

Megabus	Some frequencies run by Watts Coaches	London Victoria - Cardiff via Bristol	[Heathrow Airport, Bristol (Bond Street), Bristol UWE, Newport], Cardiff University	3x day Tu Wd, 11x day Th- Mon	from £4.48
Megabus		Newcastle - Bristol (Bond Street)	Sunderland, Middlesbrough, Leeds, Manchester, Birmingham, Cheltenham (Arle Court)	3x day Thu-Mon, 2x day Tue-Wed	from £15.55
Megabus		Barnstaple - Birmingham	Taunton, Weston-super-Mare, Bristol (Bond Street), Cheltenham (Arle Court)	1x Thu- Mon	from £19.89
Stagecoach Falcon	Falcon	Bristol City Centre (Bond Street) - Plymouth	Main: Bristol Airport, Bridgwater, Taunton, Cullompton, Exeter	19x day	£27 single, £31 return
SINBAD		Bristol - Poland	Gloucester, Swindon, Maidstone, Dover, Folkestone	2x Week	£135
SINBAD		Bournemouth - Poland	Southampton, Portsmouth, Reading, Slough, Maidstone, Dover, Folkestone	2x Week	£135

Appendix C - Mode Availability between key origins and destinations

Appendix C summarises the mode availability from key origins and destinations, showing the availability of direct rail, bus and coach services.

Also provided is a comprehensive list of origins/destinations that do not have any direct service available and rely on private transport. This highlights the disconnected areas within the Western Gateway that may require intervention

Settlements highlighted in grey are located outside of the STB area.

Where settlements fall within one or more of the designated Multi Modal Corridors this is also highlighted.

(C2) No available PT mode

The following table shows where there are no direct public transport service options available between settlement pairs.

It should be noted that for brevity only origin-destination pairs within Multi Modal Corridors are presented, however outside of the MMCs there are a significant number of OD pairs where there is no direct mode option available.

Origin	Destination	Distance (miles)	Multi-Modal Corridors
Cheltenham	Clevedon	46.1	Midlands to South West
Cheltenham	Portishead	41.2	Midlands to South West
Cheltenham	Thornbury	27.8	Midlands to South West

Appendix E - Level of Car Demand and Mode Availability between key settlements within each Multi Modal Corridor

The tables presented in Appendix E present the current estimated daily car movements which have been manually calculated using peak hour car flows extracted from National Highways' South West Regional Transport Model as the basis.

Due to the potential inaccuracies of these estimates, the movements are presented within simple bandings. This is considered sufficient to broadly illustrate the level of travel demand.

The tables show that there are key movements between settlements which generate very significant levels of travel demand and these tend to be to/from larger settlements such as Bristol, Bath and Bournemouth.

More often than not, the higher levels of travel demand tend to coincide with where there is public transport mode availability between origin and destination settlements. However there are some exceptions, including for example between Stroud and Bristol.

It is worth highlighting that this table does not account for local bus services and this will be particularly relevant to smaller settlements and closely spaced settlements which may be highlighted in these tables as having neither a rail or coach connection.

The tables illustrates the lack of direct coach services across the region, with many areas lacking access to any public transport and being disconnected as a result.

Daily (weekday) car demand bandings

Very Low	0-99
Low	100-249
Low-Moderate	250-499
Moderate	500-999
Moderate-High	1,000-2,499
High	2,500-4,999
Very High	5,000+

Mode available (direct services only)

In summary Appendix E presents the areas with the highest car demand, using origin – destination pairs. This highlights the multi modal corridors which require intervention to improve access to public transport and reduce car dependency.

The Midlands to South Coast corridor is highlighted as having a very high ranking

(E5) Origin-Destination Pairs with the Highest Car Demand (all MMCs)

All Multi-Mod	al Corridors					
Departure	Arrival	OD Journey	Multi-Modal (Corridors	Banding	Rank
Poole	Bournemouth	Poole - Bournemouth	Midlands to South Coast	South East to South West	Very High	1

Appendix F - Mode Comparison of journey times, fares and frequencies

Appendix F presents the comparisons of journey times, service frequencies and fares between the varying modes (rail, car, coach and interurban bus)

The tables show that in many cases the quickest modes are travelling by either car or rail, with the former being the quickest mode for a substantial proportion of settlement pairs within the Western Gateway STB.

Coach is the cheaper PT mode compared to rail for many settlement pairings, in some cases by a significant amount.

Mode Comparison of journey times, fares and frequencies

Appendix G – Site Visit observations

During November 2022, site visits were conducted in different locations across the Western Gateway area to assess case study examples of the five typologies of stops, interchanges, drop-off and parking locations.

The site visits demonstrated how diverse the provision of coach infrastructure is across the Western Gateway, ranging from state-of-the-art bus & coach stations to very basic stops and parking areas, some in remote locations and lacking in facilities for passengers and drivers.

It was found that interchange stations are generally of good quality and easy to navigate for passengers. Of those surveyed, the only station lacking in facilities and potentially therefore in need of major upgrades was Cheltenham's Royal Well Coach Station. A different situation is the stops in smaller towns which are often shared with local bus services and in most cases offer minimal facilities for passengers if any at all, including information on services including real time information and timetables.

Below, brief case studies of one exemplary location for each type of stop surveyed during the site visits are presented.

Type A - On-Street Stop - University of Bristol Coach Stop

In addition to the Bristol Bus & Coach Station Hub, some of the National Express services out of in and out of Bristol also stop at some other locations across Bristol's metropolitan area, most of these being standard on-street bus stops. The University of Bristol stop is an example of this category, as it is a coach stop and a bus stop for local services at the same time, located along Queen's Road, a busy road close to both the University of Bristol Campus and Brandon Hill, where the iconic Cabot Tower. Queen's Road is primarily a commercial road with many shops and restaurants along both sides of each of the two oneway two-lanes carriageways.

University of Bristol Coach Stop

The stop is not provided with any dedicated infrastructure or facility. There is no shelter from weather, with only Sainsbury's front canopy that can offer some shelter even though it is not very wide and gaps in the canopy also that let the rain through. Furthermore, the road-side pavement is relatively narrow and as shown in the image above, people waiting for buses occupy a good portion of the pavement reducing significantly the space for through movement, and pedestrian flows are expected to be high during the whole day given the many commercial activities in the area.

University of Bristol Coach Stop, passengers waiting for local buses on the busy pavement

The fact that National Express services stop here is advertised by two elements: the presence of National Express logo and of a square saying 'Nat./Exp. 040' on the bus stop flag sign next to the numbers of the bus lines that stop at the same location and another sign just by Sainsbury's front window with National Express logo on it which says 'Welcome to your coach stop'.

As can be seen in the following image, some unrelated stickers cover part of the sign including the link to the National Express website where people can purchase tickets. This may make it difficult for new coach passengers to locate the correct stop however regular travellers are more likely to know where to stand and wait. Furthermore, the stop was in high demand during the visit and is in a busy, overlooked location which may increase people's sense of security.

University of Bristol Coach Stop - Signs

Type B - On-Street Drop-Off Location - Old Orchard Drop Off

Orchard Road Drop Off Coach Bay, Poole

This is a very basic drop-off bay near the promenade in Poole with no dedicated infrastructure. The site is not very well signed but the bay is clearly marked on the road although it misses the surface lettering that can make it easier for road users to understand what type of vehicle should stop there. In addition, the coach bay is along the kerb at a point where there is no additional road space, meaning that when the bay is occupied, the space for vehicles on the road reduces significantly. As can be seen in the following image, there are often parked vehicles on the other side of the road, meaning that when a coach is stationary in the dedicated bay the road becomes very narrow with the associated hazards induced. In fact, the coach bay is not wide enough for a coach which take more space than expected causing cars to overtake the parked coach in an unsafe way, with invasion of the opposite lane. This situation that can get even worse if at the same time a local bus gets at the nearby bus stop, in this case there is no physical space for two vehicles going in opposite directions.

Old Orchard Drop Off - A coach parked in the drop-off bay and a car overtaking it while invading the opposite lane

Type C + Type E - Off-Street Stop and Long-Stay Parking – Mill Stream Coach Park, Salisbury

Mill Stream Coach Park - View from Mill Stream Approach

The Salisbury Coach Stop used by National Express Services is located right by the Millstream Coach Park, a wide area for long-stay parking used mainly by private hire coaches waiting for the passengers they dropped off in central Salisbury. The parking is close to the city centre, being a five minute walk away from the High Street and around 10

minutes walking from Salisbury Cathedral. At the same time, the site is in a relatively secluded and quiet area along the River Avon and close to the very large Central Car Park.

At the time of the site visit, major flood risk mitigation works that include the creation of a new River Park along the river were in progress, causing the closure of part of the parking area as well as road closures and diversions especially for pedestrians and cyclists. Salisbury is an attractive city for tourists who come here to visit the Cathedral and the historic centre as well as nearby Stonehenge. Hence several leisure coach hires travel here and the Mill Stream coach park is an example of how demand for coach parking is accommodated in tourist destinations.

Mill Stream Coach Park - View from the National Express stop

The parking bays are fairly cramped together in the centre, inside a loop formed by the perimetral access road. The bays are not very well delimited as the paintwork has mostly faded and the road surface is in a poor condition with many different patches and depressions where rainwater collects. This is a paid parking area for coaches and there are machines on-site where the parking charge can be paid. The charges are displayed on the machine (Monday to Saturday: from £1.80 for up to 1 hour stays to £10.80 for all day stays; Sunday: £2.80 flat rate) and can be paid also by phone. Current engineering works make it difficult to assess the accessibility of the site as the bridge connecting to the Central Car Park is currently closed and it will soon be demolished to make room for a new bridge over river Avon.

Groundworks at the Mill Stream Coach Park. Cycleway and Footpath closed with closed road bridge over river Avon in the background.

Public Toilets are available just by the parking area but payment of a 50p charge is required to access them. The toilets are the only facilities available and also the coach stop is not provided with any shelter. Thus, the small section of the roof over the toilets building that covers a portion of the pavement by the coach stop is the only element providing some sort of shelter from the elements.

Mill Stream Coach Stop - On the left the toilets, on the right the coach stop used by scheduled services

A major issue of this site is the lack of information provision and wayfinding. In fact, there is no way to tell that National Express services stop there and if it was not for the instructions provided online by the operator, it would have been impossible to identify this stop's location. By the stop's bay, there is a pole with no timetable, nor National Express logo in it. The only signs on the pole are one about the presence of CCTV cameras and the second indicating that it is an 'Alcohol Free Zone'. Also, the route that passengers should follow to reach the coach stop or the parking bays is unsigned and hard to discern. The information panels for the nearby groundworks mention a separate project to improve the coach park which will would lead to a makeover of the surfaces and to the installation of improved information and wayfinding signs for coach passengers.

Mill Stream Coach Stop, signs by the stop bay

Type D1 – Low Quality Station / Interchange - Royal Well Coach Station

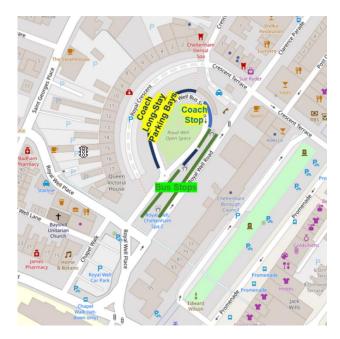

This is an example of an open-air bus and coach station with limited facilities. The station doesn't feature a fully covered waiting area although open ended shelters are present. On the contrary, this 'station' is formed of several bus stops and one coach stop placed both sides of a pedestrian island.

One side of the island is along Royal Well Road, open to all modes and where only buses stop; while the other side runs along an inner road loop accessible only to buses and coaches. Along the edge of the curved road there is one bay used as a stop by scheduled coach services and 4 bays for longer term parking of coaches.

An additional bay between two bus stops is used by coaches as well. Even though the location is not marked as a coach drop off point.

Royal Well Coach Station - Pedestrian island with stops on both sides

Cheltenham Royal Well Bus & Coach Station - Map of the Site

The site is easily accessible as it is in the city centre and there are appropriate crossings for people coming from the opposite side of the road, where free toilets are also located. Being a fully outdoor station and in an area flanked by trees, means that especially in autumn,

there are many leaves on the ground which can make the surfaces more slippery causing hazard for pedestrians and cyclists.

Moreover, the curved layout of the inner loop means that parking bays following the kerb assume curved forms therefore coaches don't align properly. The next image depicts a National Express coach that has just arrived in its designated area. As it can be seen in the pictures the coach is parked with the back section out of the parking bay and the right front over the pavement. This unorthodox parking potential creates a danger for pedestrians when the coach pulls up and also creates an unexpected hazard on the pavement.

Royal Well Coach Station - National Express Coach picking up passengers

The coach parking bays at the Royal Well station are the only official parking locations for the whole Cheltenham. Hence, it is not surprising that even on a relatively quiet morning as the one when the site visit was conducted and with no major events happening, the parking bays were all occupied, and a few coaches went in and out of the station area (as shown in the image below).

Royal Well Coach Station - Coaches (and a bus) stationing in the longer stay parking bays

A major issue of the Cheltenham bus and coach station is the scarce provision of information and directions for coach passengers. Upon arriving at the station, there appears to be no clear way to understand where scheduled coaches stop, since there are no signs or indication of which stop bays are used by National Express. The only sign offering a clue of where they might stop is on the inner side of one of the shelters and can be seen in the next image overleaf**Error! Reference source not found.**.

Many National Express stops now feature a standard sign with a QR Code directing to the operator's website where passengers can purchase tickets (see for instance the one at the Gloucester Transport Hub – see next case study). However, the one in Cheltenham is different as it doesn't use the standard template and it doesn't include any QR code.

Instead, the sign is quite confusing for passengers as it contains both National Express and Marchants Coaches logos and the link displayed is not to the National Express website but to the Marchants Coaches website and it provides directions to the Marchants office in Cheltenham where passengers can purchase tickets and is a 3 minutes-walk away from the coach stop.

Cheltenham Royal Well Coach Station - The only National Express sign present on site.

Type D2 – High Quality Station/Interchange Gloucester Transport Hub

Gloucester Transport Hub - Outside view while approaching from the station

Gloucester Transport Hub is the most recently constructed facility among those surveyed as it was opened to the public in October 2018. The image above is of the outside of the station.

The interior is airy and luminous, especially thanks to the wide, floor-to-ceiling windows that let plenty of natural light in, even when it is not so sunny.

Given its recent construction, the station appears to adhere to current regulations in terms of accessibility. Indications of this are the absence of steps across the station and the extensive use of tactile pavement which lead to every bay as well as to the ticket office and includes several technological features such as live departure boards at every bay and information totems, although not all the technological elements were working properly at the time of visit.

Gloucester Transport Hub - Digital Boards

Gloucester Transport Hub - Inside View

Beside the information provided by the digital boards, there is also an information and ticket office run by Stagecoach West. However, the office does not sell National Express tickets. Passengers who want to purchase a ticket for one of the coach services need to scan a QR code from a sign displayed just by the ticket office directing to the website where tickets can be purchased. This appears to be the norm for National Express as most locations surveyed as part of the site visits series featured this sign and no ticket office or machine were present. Only major hubs such as the Bristol Bus and Coach Station and Bournemouth Coach Station also have the machines and office.

Information & ticket Office and National Express sign with QR code directing to website

The only element of this modern bus station that could generate complaints from the public is that toilets are available but for a small fee of 20p to be paid by card on the cubicle's door. The toilet rooms have cubicles for females, males one unisex cubicle and one accessible toilet which is free and at the time of visit the door was open so anyone could use it avoiding the 20p fee. A baby change/family room is also available for 20p.

Gloucester Transport Hub - Toilets and Out of Order sign

Type E – Long-stay Parking – Poole Stadium Lorry and Coach Park

Poole Stadium Lorry and Coach Park

The Poole Stadium Lorry and Coach Park is a very basic parking area found near the Poole Stadium Speedway. It offers bays for long-stays up to 24 hours for coaches and lorries. At the time of visit the site was very quiet and only a couple of lorries were parked there. That it because it was not an event day at the Poole Stadium and it was also during the low-season for tourism. The site has no actual facilities for passengers or for drivers. The location is not very central but well connected to the rest of the town, quite close to the station and relatively easy to reach for coaches that drop passengers in the town centre or closer to the waterfront. During the off-peak tourism season, given the low demand for coach bays, it is likely that coach drivers prefer to park at the Seldown Coach Park which is closer to the centre. However, already on a weekday in November that site was nearly at capacity so the Stadium Coach Park is useful to provide additional capacity during the summer months.

Poole Stadium Lorry and Coach Park

The image above shows the good signage at the site. The first sign is placed at the entrance of the parking area and clearly explains the conditions of use. Signs like the one to the right are dotted around the parking area and tell what are the sanctions for breaking the site rules as well as the council's regulations. The road surface is quite rough with some patches where the asphalt has crumbled.

Poole Stadium Lorry and Coach Park - Road Surface

Appendix H – Proposed New Coach Service route, supporting analysis

The following tables show the current estimated car demand (as a broad indication of the potential level of demand for a new coach service), the distance between origins/destinations and current mode availability (direct services only), for the three strategic gaps identified as potential new coach service routes.

For simplicity, only one direction of travel is shown although car demand may vary by direction.

Strategic Gap 1 (Bristol-Bath-Frome-Warminster-Shaftesbury-Blandford Forum-Poole-Bournemouth-Christchurch)

Origin <-> Destination	Car Demand	Distance (miles)	Current PT Mode Availability (Direct)
Bristol - Bath	Very High	10.5	RB
Bristol - Frome	No data	19.3	R
Bristol – Warminster	Moderate	24.3	R
Bristol - Shaftesbury	Very Low	35	None
Bristol – Blandford Forum	Very Low	44.9	None
Bristol - Poole	Low	56.8	None
Bristol - Bournemouth	Low	59	None
Bristol - Christchurch	Very Low	60.5	None
Bath - Frome	No Data	10.6	RB
Bath – Warminster	High	14.3	RB
Bath - Shaftesbury	Low	26.7	None
Bath – Blandford Forum	Very Low	37	None
Bath - Poole	Low	48.3	None
Bath - Bournemouth	Low	50	None
Bath - Christchurch	Very Low	51	None
Frome – Warminster	No Data	6.2	В
Frome - Shaftesbury	No Data	16.3	None
Frome – Blandford F	No Data	26.7	None
Frome - Poole	No Data	38.2	None
Frome - Bournemouth	No Data	40.2	None
Frome - Christchurch	No Data	41.5	None
Warminster – Shaftesbury	Moderate	13.8	None
Warminster – Blandford Forum	Low-Moderate	24.1	None
Warminster – Poole	Low	34.6	None
Warminster – Bournemouth	Low	35.9	None
Warminster – Christchurch	Very Low	36.8	None
Shaftesbury – Blandford Forum	High	10.4	В
Shaftesbury – Poole	Moderate	21.9	None
Shaftesbury – Bournemouth	Moderate	24.3	None

Shaftesbury – Christchurch	Very Low	26.1	None
Blandford F – Poole	Very High	12.3	В
Blandford F - Bournemouth	Very High	16	None
Blandford F - Christchurch	Low	18.8	None

Note: movements between Bournemouth, Poole and Christchurch not shown as a new coach service would most likely not be targeting these shorter distance trips within the conurbation where alternative train and bus service options are available.

Settlement	Trip Attractor rating
Bristol	Significant concentrations E.g. regionally-significant clusters of key trip attractors across all sectors including leisure (including retail and tourist attractions), higher education institutions, international hubs and employment)
Bath	Significant concentrations E.g. regionally-significant clusters of key trip attractors across all sectors including leisure (including retail and tourist attractions), higher education institutions, international hubs and employment)
Frome	Moderate concentrations E.g. locally-important clusters of some key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Shaftesbury	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Blandford Forum	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Bournemouth	Significant concentrations E.g. regionally-significant clusters of key trip attractors across all sectors including leisure (including retail and tourist attractions), higher education institutions, international hubs and employment)
Poole	Higher concentrations E.g. regionally-important clusters of key trip attractors across more sectors including leisure (including retail and tourist attractions), higher education institutions, international hubs and employment)
Christchurch	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)

Note: movements between Bournemouth, Poole and Christchurch not shown as a new coach service would most likely not be targeting these shorter distance trips within the conurbation where alternative train and bus service options are available. Movements between Bournemouth/Poole/Christchurch and Dorchester/Weymouth also not shown since they are alternate route end points and would not be directly connected by this route.

Settlement	Trip Attractor rating
Cheltenham	Higher concentrations E.g. regionally-important clusters of key trip attractors across more sectors including leisure (including retail and tourist attractions), higher education institutions, international hubs and employment)
Cirencester	Moderate concentrations

	E.g. locally-important clusters of some key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Tetbury	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Malmesbury	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Chippenham	Moderate concentrations E.g. locally-important clusters of some key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Melksham	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Trowbridge	Moderate concentrations E.g. locally-important clusters of some key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Westbury	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Warminster	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Shaftesbury	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Blandford Forum	Lower concentrations E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Poole	Higher concentrations E.g. regionally-important clusters of key trip attractors across more sectors including leisure (including retail and tourist attractions), higher education institutions, international hubs and employment)
Bournemouth	Significant concentrations E.g. regionally-significant clusters of key trip attractors across all sectors including leisure (including retail and tourist attractions), higher education institutions, international hubs and employment)
Christchurch	Lower concentrations

Western Gateway STB Coach Strategy – Appendices

	E.g. the presence of some or limited key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
Dorchester	Higher concentrations E.g. regionally-important clusters of key trip attractors across more sectors including leisure (including retail and tourist attractions), higher education institutions, international hubs and employment)
Weymouth	Moderate concentrations E.g. locally-important clusters of some key trip attractors including leisure (including retail and tourist attractions), higher education institutions and employment)
